## ACHILLE CHAIR

Designed by Jean Marie Massaud

A design chair whose undisputed aesthetic impact goes side by side with a considerable functionality, making it fit for many environments: from private residences to offices, from meeting rooms to community spaces. Stackable and practical, it offers plenty of customisation options: in fact there are different coverings available, all of them fully removable. Achille Chair also stands out for Jean Marie Massaud's stylistic research, based on essentiality and lightness, capable of ensuring a wrapping comfort.

WHY ACHILLE CHAIR:

- Practical and stackable
- A perfect mix of image and comfort
- Suitable for residential and contract spaces

### FRAME

In metal tubing, foamed with polyurethane rubbers, upholstered with fabric.

### COVER

The upholstery is fully removable and covers the whole armchair.

## ACHILLE ARMCHAIR

Designed by Jean Marie Massaud

Top comfort thanks to the padding, combined with a considerable visual impact. Attention to details, formal elegance, light and essential lines: all of these features combine naturally and harmoniously in Achille armchair, designed by Jean Marie Massaud, that is perfect for business and residential spaces. Subtraction, synthesis and lightweight: these armchairs also express at best the French designer's stylistic research, focusing on a full and enveloping comfort idea. Achille armchair is so comfortable it seems to be modelling on the body, surrounding it with relax. These armchairs feature either a fabric or leather completely removable covering, offered in different variants and shades.

### WHY ACHILLE ARMCHAIR:

- It ensures comfort and lightweight
- It offers a wide selection of coverings
- It is functional and has a removable cover
- It adapts to residential and contract spaces

### FRAME

In metal tubing, foamed with polyurethane rubbers, upholstered with fabric.

### COVER

The upholstery is fully removable and covers the whole armchair.
