

brix kensaku oshiro

Multipurpose armchair for the home or business establishments. Thanks to its geometric design, many units can be grouped together to create elegant configurations in common areas. Its arm in different and very closely researched sizes means that you can work on your tablet on the wide arm and even have an auxiliary table with a built-in support.

materials:

Solid wood + MDF covered in non-deformable expanded polyurethane and polyester fiber. Calibrated steel base lacquered in thermoset epoxy polyester in white and black. Transparent plastic foot pads. Non-removable cover.
