ONE PROFILE, INFINITE POSSIBILITIES

The peculiarity of this collection lies in the clipping between profiles, which makes it possible to obtain aluminum boards in an infinity of dimensions and to build structures using an innovative construction system made up of an aluminum knot and stainless steel bolts.

MATERIALS

Anodized aluminium with a smooth or etched surface. Iroko wood (sideboard/shelf doors). Tempered glass opaque white digital printing (sideboard/shelf doors). The seat and backrest are channel tufted in the same direction as the aluminium slats. Seat and backrest cushions made of polyurethane foam rubber and polyester fiber with water-repellent fabric. Polyester fiber cushion covered in water-repellent fabric. Removable outdoor technical fabric upholstery.

NOTE: Tempered glass complies with EN 12150 regulations.
