

## gio gianfranco frattini

Inspired by a classic piece of Italian design. Designed in 1957 by Gianfranco Frattini and nominated the same year for Compasso d'Oro, Gio is a low table which expresses an idea of rationalist rigor and refined elegance, creating the emotion of a warm bourgeois atmosphere. It is characterized by the linear wood structure and by the ash wood double faced laminated top.

### materials:

Base in ash wood dyed dark walnut or grey. Top in ash wood dyed dark walnut or grey and laminated on both sides or completely in ash wood dyed dark walnut.
