# Materials & Colors

## TABLE STRUCTURE and FRAME

Material / Laser-cut 2mm CRCA Steel  
Color / RAL 9003 Signal White  
Color / RAL 2002 Calder Flamingo Red  
Color / RAL 7021 Mies Grey  
Standard Finish / High-gloss  
Pure Polyester color-coat + Epoxy base-coat

## TABLETOPS in STEEL

Material / Laser-cut 2.5mm CRCA Steel  
Color / RAL 9003 Signal White  
Color / RAL 2002 Calder Flamingo Red Orange  
Color / RAL 7021 Mies Grey  
Standard Finish / High-gloss  
Pure Polyester color-coat + Epoxy base-coat

## TABLETOPS in Compact Lam / Richlite™

C.Lam is a solid resin and paper composite.  
Cool and smooth to the touch, C.Lam is tough,  
and virtually impervious to everyday use.

Thickness / 25mm, 18mm, 16mm, 12mm  
Color / Richlite Grays Harbor / Dark Grey  
Color / Richlite Browns Point / Deep Brown  
Color / Richlite Maple Valley / Light Brown

## OPTIONS

Tabletops and frames in Stainless Steel 304.  
Tabletops and frames in Stainless Steel 316.  
Custom colors for steel tabletops and frames.  
Custom Richlite colors and finishes..  
Custom edge profiles for Richlite tabletops.  
Client-specified / Client-supplied tabletops.

## NOTE

The Richlite variants we use  
derive their color from the  
tints of the paper and resins  
they are made of. We do not  
use additional colors, dyes or  
finishes for Richlite tabletops.

# Sizes & Specifications

## ACTUAL vs. NOMINAL SIZES

Raw materials are made in standard sizes, such as 4'X8'. When machined to a tabletop, the resulting size is a bit smaller, 3'10"X7'10".

- 3'10"X7'10" is the actual size
- 4'X8' is the nominal size.

Since it is easier [and quicker] to think in terms of whole numbers rather than fractions, we typically mention nominal sizes / dimensions. This is also standard practice across the architecture and building industry.

Please enquire ahead of time whenever dimensions are super critical.

## SPECIAL SIZES FOR SPECIAL PROJECTS

For special projects, or large projects, it is possible for us to have raw materials manufactured in larger sizes, smaller sizes, or more efficient sizes. Please enquire.

[contact@honeststructures.com](mailto:contact@honeststructures.com)

## CHANGE FOR THE BETTER

HS refines product designs to make them better. As such, details on the same products may vary from one batch to the next, especially over extended periods of time.

# Re-use, Refurbish & Recycle

## OVERVIEW

HS Products are Guaranteed for life.

This means that they're designed and made to last forever with regular use [not abuse].

We all know that things happen and sometimes products are damaged. What then?

1. **RE-USE** / HS products are engineered to be taken apart without tools. They are modular in design, and they are assembled without welds or glues. Replace a damaged part with a new one, re-use the rest, and you're done.
2. **REFURBISH** / Through heavy use, products can get scuffed up. Or maybe you'd like your table in a new color after a few years? We can refinish steel components at any time, and replace Richlite and plywood tops.
3. **RECYCLE** / If any parts are impossible to salvage, they can be cleanly recycled. Steel components are recycled into new steel, Richlite can be sent back to the manufacturer and turned into new material.

## Round Tables

HS Round tables are versatile and visually light.

C.Lam and Birch plywood topped HS tables also available in SuperCircle variants. Please enquire.

# HS Round Table

## Steel Top

## Steel Frame

### OVERVIEW

Classic, super-versatile, super-attractive.

The entire table is just 3 components: one smooth, seamless top and two sets of legs.

Visually light with a clean, minimal perimeter.

Functionally heavyweight with a useful center trough which holds laptop and phone chargers, condiments and cutlery for dining, books and periodicals, just about anything - leaving the top surface totally free and uncluttered.

### DIMENSIONS

Diameter / 2'-8"

Height / 2'-6"

# HS Round Table Mini Steel Top Steel Frame

## OVERVIEW

Classic, super-versatile, super-attractive. Mini.

The entire table is just 3 components: one smooth, seamless top and two sets of legs.

Visually light with a clean, minimal perimeter.

# HS Square & Rectangular Tables Steel Frame w. Shelf [option]

## STEEL FRAMES WITH SHELVES

We feel that there's no such thing as too much storage and organization.

Therefore, we offer all our A-Frame supports with optional built-in shelves. Seamless, made from the same piece of steel as the frames.

More utility, less waste - what's not to like?

Shown alongside with and without shelves. Please specify preference at time of purchase.

## DIMENSIONS

Fits perfectly within A-Frame.

## Specialty & Custom Tables

HS makes application-specific specialty and custom tables.

We've done special tables for a bespoke denim company [shown here], special live/work/dining tables for compact apartments, especially hard-wearing and hard-working arts&crafts tables.

Something specific you'd like to do? Or add a bit of customization to personalize a standard table? Please enquire.

# HS Specialty & Custom Tables

## Extra Long Arrays

### Steel Frame

#### OVERVIEW

Sometimes tables need to be longer than long.

For these applications, we offer the ability to create vast, long surfaces using interlinked arrays of our A-Frame and beam system.

Unlimited by the maximum length of a single tabletop, these tables can be as long as you want them to be.

Ideal for communal dining, teamwork, product displays, graphics and design work, wherever being able to spread out and flex is desirable.

#### DIMENSIONS

Length [shown] / 21' [7'x3]  
Length [also available] / Multiples of 7' [14', 21', 28'] and Multiples of 8' [16', 24', 32']  
Length [special order] / Multiples of 9', Multiples of 10'

Width [shown] / 3'

## Intelligent Design for the Everyday™

We design and make furniture and organization systems. Our products look good, are highly functional, and are easily customized and configured to your requirements. We laser-cut, curve and fold hi-strength alloys into fluid, seamless, precisely manufactured products.

## HS on Sustainability: Better Stuff = Less Stuff

It is our belief that assuming responsibility for what we bring into the world assures best practices. Sustainability can never be a footnote. At HS, it is at the core of how we think, how we work, how we make.

We use only the finest materials to make products that can last forever. They can be refinished and refreshed whenever you'd like.

To ensure your installation looks and feels good for years [not weeks], we don't follow trends. We design original, timeless products.

Products made with mixed materials can only go into landfills. We use no mixed materials.

HS products disassemble completely as easily as they assemble, in seconds. So they are fully recyclable with very little effort.

We feel it is a more sustainable practice to buy fewer, better products. Our products are guaranteed for life.

### **Beautiful and highly functional**

At HS, we believe that the beauty of a product comes from how it's made, what it's made of, what it does and how well it works. Cool to the touch, smooth, easy to clean.

### **Space-saving smart investment**

Space utilization is 10-13% more efficient with modular HS system-based products. Use the extra space for greater revenue generation, or reduce built footprint and capital investment.

### **Responsible**

HS makes the cleanest, most responsible line of products of their kind anywhere in the world.

### **Modular and customizable**

Products across the entire HS Collection are designed to work well together. Our approach tailors products to your specific requirements. In any color. At no extra cost.

### **Assembles fast, lasts forever**

HS products interlock within minutes, so you're up and running in hours, not weeks. Rather than replacements, consider a refresh or change of color. Think long-term. Invest once and done. Guaranteed for life.
