

JEY

Francesco Rota | 2016

Stable and movable. It can be used as a top or a portable table. JEY has two lives, two personalities, two materials, two heights and two colours. It is a small table-sculpture, with a marble or cement base, and a tubular column that develops into a shaped top in various geometric shapes, ending with a handle. And at that point, only your hand decides its role. It can be matched with an armchair, a sofa, another table or another JEY.

JEY

Francesco Rota | 2016

| T40 With marble base H.45

Occasional side table with white Carrara marble base or black Marquinia or in concrete. Stem in powder coated steel. Felt under the base. Tops in black or white HPL Fenix® 10 mm. in several shapes.

use and maintenance instructions

Clean all parts in wood, leather, fabric and metal with a damp cloth or a diluted neutral cleaner. Do not use cleaners with alcohol, bleach, solvent or abrasive products. Any liquid spilt on the product must be wiped up immediately. When lifting or moving the product, hold it on the structure and not under the seat. The product should not be subjected to unbalanced weights, as it is designed for a proper rest on the foothold (on four legs or on the base). Our company relieves from any responsibility in case of damage caused to fragile floors. Avoid any improper use of the product: do not step on the product, on the footrest or on the armrests. Avoid any movements that could compromise the proper functionality of the product or the safety of the users. Wood and leather, being natural materials, could be easily damaged. Small impurities or imperfections are within quality standard range. Do not expose the product to weather conditions or atmospheric agents, nor to heat sources over 40°C. Also products for outdoor use could be afflicted by atmospheric agents. The product could undergo possible exterior changes due to particular exposure to heat, humidity and saltiness. An appropriate and frequent maintenance and cleaning of the product enhances its durability. The product could change colour and shade, if exposed to direct sunlight. Maintenance has to be carried out by experienced staff. Dispose of the package only after assembling the product, in order to avoid the loss of ironmongery and components. Once the product has been dismantled, the product itself or its components must be given to the public garbage disposal system, according to the legislation in force.

Francesco Rota | 2016

It moves by itself, it is the sky and freedom. Pure outdoor essence. The JEY table-sculpture moves easily between a sofa, an armchair or another table. A cement or marble base and a tubular column support the tabletop, available in various geometric shapes. Its handle ensures an elegant and easy grip. It can be plucked like a flower.

ET40 | outdoor side table with marble or concrete base H.45 

Occasional outdoor side table with white Carrara marble base or black Marquinia or in concrete. Stem in stainless steel 304 powder coated polyester. Rubber glides under the base. Tops in HPL Fenix® 10 mm. in several shapes.

use and maintenance instructions

Plastic materials, even if intended for outdoor use, may still be attacked over time by particular atmospheric pollutants (e.g. acid rain, high concentration of PM10, nitrogen oxides, hydrocarbons, etc.). Any changes in the surface and in colours may therefore occur under particular conditions of exposure and cannot be considered grounds for any claims.

Do not use detergents containing bleach, hydrochloric acid or products containing chloride on any metal parts. Salt, limescale or acid (from coffee, wine, orange juice, tomato juice, lemon, etc.) may discolour stainless steel parts if they are not promptly cleaned. Products or parts made of stainless steel used near the sea or in interior fittings of swimming pools require more frequent cleaning to remove chloride deposits and prevent corrosion and chemical attack of the external surface. Stains on stainless steel surfaces must be promptly cleaned. If left for a long time they can become permanent.

To prolong the life of the product, clean the surfaces regularly, dry them with a clean cloth and remove any stagnant water, especially if exposed in locations with a high level of humidity or a marine climate.

When not in use, we recommend storing in sheltered places and covering with waterproof protection. In this case, it is advisable to remove the cover and ventilate the product frequently and regularly to avoid the onset of any mould or stains due to damp.

THE WARRANTY WILL NOT COVER DEFECTS OR IMPERFECTIONS RESULTING FROM THE PASSAGE OF TIME OR TO WEAR AND TEAR DUE TO THE NORMAL USE OF THE PRODUCT.
