

maarten table/office victor carrasco

Table system based on a technical minimalist leg solution that does not need a structure and can be attached directly to the table top. Having no structure and a table top thickness of just 5 mm it acquires great visual lightness. There are endless uses, finishes and formats with this innovative system. Its "one mile" concept expresses how it can be used for breakfast in the kitchen, then working in the office, for eating in a restaurant and later on for a meeting in the boardroom and finally for dinner in the evening.

materials:

Top in 1.18" thick technical microtexturized MDF lacquered in the colours of the collection, providing high resistance and anti-scratching. Veneered in matt natural oak, cognac, ash or wenge. Due to the fact that the wood used is natural, the finish may vary. In 0.87" thick plywood with HPL in black or white with varnished edges.

The complements are manufactured in technical microtexturized MDF lacquered in the colors of our collection.

The adjustable hieght legs are in calibrated powder coated steel tube in thermo-reinforced polyester in white, black, altea blue or orange flourescent. The possibility of combining the leg colors is offered.
