MAMBA

Designed by Victor Vasilev

Nowadays work is flexible more than ever, and the smart working is transforming our daily life.

Creating a home office station becomes necessary and leads us to look for solutions suitable to all spaces.

Mamba perfectly meets this requirements, adapting to all environments, from the bedroom, to a foyer, to the living room or the studio.

A sinuous line draws on the wall a space-saving desk with elegant shapes.

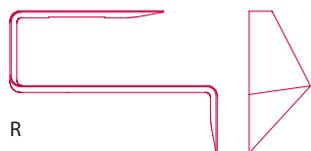

Form, function and material come together into an essential, versatile and functional design element that can be used according to the needs as a desk or as a shelf.

Mamba is available with left or right orientation and can be equipped with a white HD LED.

SHELF

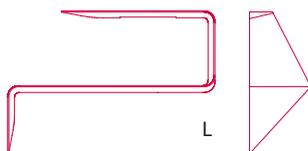

The shelf is made of matt white Cristalplant, a composite material made up of natural minerals, acrylic material and polymer polyesters.

MAMBA LIGHT

Designed by Victor Vasilev

© COPYRIGHT 2021 MDF ITALIA SRL SOCIETA' UNIPERSONALE

A hanging shelf-desk, able to adapt to all spaces thanks to its essentiality.

Mamba Light combines practicality and aesthetics by responding to the needs of the home office and those of the traditional desk. The reduced size and the wide colour range allow Mamba Light to fit into different environments, from the bedroom, to the living room, to the children's bedroom.

At the entrance it is a versatile complement, which can be used to display objects or as a practical shelf.

Today, Mamba Light is enriched with two new finishes in Canaletto walnut and black stained ash (available from May 2021) that convey a natural sensation of warmth and cosiness. The Canaletto walnut, smooth and with a gentle touch, makes the environment welcoming, while the black stained ash, more textured, connotes the environments with elegance and refinement. Two finishes that fit into the most classic contexts, but also into the most contemporary ones, characterising them with great personality.

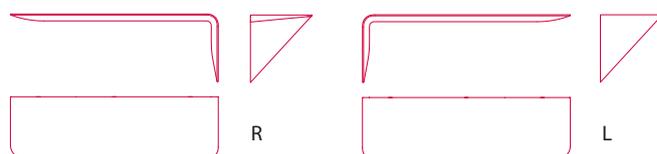

SHELF

The shelf is in medium-density fibreboard with varying thicknesses and moulded into a curve.

Finish: matt lacquered white, anthracite grey, avio blue. New finishes: Canaletto walnut and black ash (available from May 2021).

It is attached to the wall with a bracket.
