

marina picnic

bruno fattorini & partners

Bruno Fattorini & Partners opted for a picnic table in its most basic shape and made it out of pultrusion fiber glass profiles. This way, seemingly endless tables can be created. The composite of fiber glass and polyester is a solid, durable and contemporary material that feels just like wood. However, it is considerably less sensitive to temperature changes and humidity.

materials:

Fiber Glass

Powder Coated Steel

Polyamide

dimensions:

2 legs	165 cm 6 people	
	220 cm 8 people	
	275 cm 10 people	
	330 cm 12 people
