

Maui Soft

tribute to Vico Magistretti

Designed between 1995 and 1996, the Maui chair was the focal point of design research in the nineties and is the first of a new era of single mould seats in material that has no ribbing, tracery, metal supports or reinforcements to support the back. In 2012 Kartell brought it back in a fabric-covered version (Kvadrat and Trevira) thus increasing its rich family of colours and functions, able to satisfy the specific needs in the contract sector as well as in the home. The elegant lines and its practicality make the Maui chair an extremely versatile design, just as contemporary today as yesterday.
