

miunn karri monni

Miunn seating system is formed of a single shell using 3D ply moulding technology. Its design features an embracing egg-shaped shell with several base and height options. Its shape provides support to the back with soft lines gently cradling the sitter. The Miunn chairs are available with a 4 star aluminum base, a 4 leg base or a sled base which are offered in matt chrome or powder coated options. The Miunn stool can be chosen in two different fixed heights or with an adjustable seat height on a swivel base. Miunn seats have a wide range of wood options and can also be fully upholstered in a range of fabrics or leather.
