

mr. impossible phillippe starck

A most inviting chair with an organic design that inspires comfort, neatness and style. Mr. Impossible is the combination of sophisticated design and advanced plastic processing design. It takes on a new technological challenge with highly sophisticated processing techniques that consist in the welding of two shells: the translucent structure and the seat, in a full-colored and translucent version, are joined together making them indestructible and guarantee a truly surprising design effect. The seal of the two oval shells gives the plastic a new bi-color and three-dimensional effect because it welds a transparent and a colored surface together without interruption, revolutionizing the perception of the material which becomes rich and hyper-technological.

materials:

Seat: transparent or batch-dyed polycarbonate

Structure: transparent polycarbonate

Transparent

42/ochre

dimensions:

21.7" x 21.3" x 33"ht 18.1"sh
