

quartier claesson koivisto rune

A metropolis of buildings in miniature, colorful, soft and cozy, to combine the wide range of differing private and public areas. This is the creative idea from which arise a new ottomans Quartier. Design Claesson Koivisto Rune, available in three different sizes and different colors. Their square lines and visible stitching in contrasting tones are reminiscent of building in a “cartoon” strip. A young and fun new product and versatile at the same time, giving forms to comfort and conviviality.
