

ruff pouf romero & vallejo

The Ruff Pouf is a very charming furniture accessory which is inspired by the fabric ruffles worn around the neck during the Elizabethan era to denote wealth and status. Mixing geometry and folding techniques the Ruff Pouf consists of a solid circular drum made from expanded polystyrene and foam rubber surrounded by a continuous pleated skirt made from 100% felted new wool. The combination of hard and soft, abstract and geometrical patterns lends this furniture item its strong character which makes a bold design statement.
