

smooth rug gan

The geometry of the world's decorative arts serves as the inspiration for Smooth, a kaleidoscopic rug designed by Gan made from felted wool, using the traditional hand made technique. Whether it be the gothic stained glass windows of Europe, Persian marquetry, North African geometric motifs or Indian embellishment the rug is a genuine magic carpet that can transport us around the globe just by using our imaginations. Smooth is part of the Felt collection of rugs produced by Gan, the raw material, matted wool, has a universal appeal in terms of its warmth and organic quality. The minimal depth, at 10mm makes is a highly versatile rug which combined with its multi-coloured bold motif makes it a powerful design statement wherever it's used.
