

# Surf Collection

Karim Rashid

The flowing wave that composes the seat and leg rests of surf alludes to a sense of calm. It is a soft swell in flux and a fluid gesture that changes with vary light. The method of its creator is the overriding canvas of the world for a new well-being that evokes calmness, casualness, driven by vibrant forms that are refreshing, and elevating. The pieces are manufactured by rotational moulding, the main characteristic of this technique is that the material is 100% recyclable and it can explore never ending possibilities of the shapes.
