

Tuile Patrick Norguet

With their rounded shapes, the legs of Maki tables are combined with a staved top made of Teak, FSC certified to respect the environment, which is 20 cm wide and 2 cm thick. The top can be left in its natural color, since over time it acquires an unmistakable silvery shade, or it can be treated with oil to allow it to resume its original color. Extendable tables are fitted with drawn aluminium extensions, housed in a special compartment.
