

comback patricia urquiola

Kartell once again has fun revisiting a great classic and giving a new look to the Windsor chair. A return to the glorious Anglo-Saxon past of England in the XVIIIth century for a “Comb Back” version with a matte frame featuring a backrest consisting of seven “teeth” which spread out towards the lumbar region where they meet a reinforced hexagonal rim with slim shafts radiating down to join the seat. A goodly size, this single mould chair embodies functionality and ergonomics well-freighted with sentiment and memories. The use of plastic and the pale shades available give a touch of lightness and the contemporary to the Comback chair. Available in swivel base, sled base or 4 leg base.

Materials

Seat in batch-dyed techno polymer thermoplastic, Swivel and sled base in black or painted steel and four leg base in oak stained ash wood or lacquered.
