

# dance floor ggsv

Dance Floor is a project with disruptive and timeless energy that consists of rugs with surprising shapes – circular, long and thin, all round – which play in a unique way with the optical deception of three-dimensionality. Curved and concentric lines determine the movement of the surfaces, which are characterized by a definition and a depth of color without equal. Available in shades of orange, pink, purple and black, the Dance Floor rugs, thanks to their big dimensions, are able to radically transform spaces: the disco mood invades the home with an energy that floors perception.
