

# dibbets rainbow rodolfo dordoni

A rug with an unusual, yet refined blend of colors for a softly nuanced effect. The creation of Dibbets rainbow was inspired by the properties of Lyocell. Fibers with an amazing ability to reflect light and accept dye of any color. The nuanced effect is achieved by mixing various colors.

## materials

Lyocell viscose. Arctic in white, ecru, grey and pewter. Forest in rust, petroleum and ecru. Boreal in ecru, grey, blue and brown.
