

dickson gandia blasco

We at Gandia Blasco are passionate about outdoor living. True to our textile origins, and after a 75 year history, this year we have slipped off our shoes and taken our first collection of outdoor carpets outside. Made using high resistance fibres, GANDIABLASCO outdoor carpets complement each and every one of our collections to create contemporary outdoor spaces and experience them in a more intense, integrated way. Relax and walk barefoot over comfortable and pleasant surfaces enjoying the most pure Gandia Blasco style. The vinyl fabric combines the durability and resistance of vinyl with the textures of traditional fabrics used for carpets, which you can personalize to the colour and size of your choosing that best fits your space. These are the ideal addition to create contemporary atmospheres in hotels, residences, restaurants, as well as the most demanding contract projects. Create your outdoor space with elegance, without doing away with the comfort of indoor spaces. We invite you to live our outdoor spaces in a different way.

materials:

Woven vinyl combined with high performance backing and acrylic or woven vinyl borders.
