

# dozequinze francesco sillitti

Dozequinze is a collection that was inspired from the observation of the thick cable connections in the city of Sao Paulo. Dozequinze is a line of furniture that transposes the characteristic element transmitting to each object a unique and distinct character... Dozequinze is designed for indoor and outdoor space. Its structure is stainless steel tube and the seat is made with a rubber band. This structure gives strength and comfort.

## materials:

Powder coated stainless steel round tubes with elastic webbing made of polypropylene fibers and synthetic rubber. Frame and webbing in white, sand, anthracite, bronze/tobacco or black/tobacco. Laminated glass table top for coffee table.
