

optic patrick jouin

This faceted cube is an exciting object with its transparent or mirrored parts which creates a special atmosphere through the images it reflects.

Optic is a container cube in PMMA which comes in two versions: closed with a door or with one open side. Its surface is strikingly decorated with square based pyramids, slightly in relief, which, whether transparent or mirrored, creates a strong visual impact.

Optic offers endless choice and possibilities, it can be placed side by side, piled one another, or composed in a linear manner; according to how many there are and how they are positioned.
