Armchair

materials:

Frame: in metal with epoxy powder lacquer finish (baked at 200°C), available only in matt black. Seat and backrest cushions with wood frame with woven elastic straps with a high rubber content.

Frame preparation: let into high-density polyurethane foam in different densities and Mindfoam.

Armrests: armrest frame let into fireproof polyurethane foam. Armrest cover always made of leather. If the armchair is covered in fabric, the armrest will always be covered in black leather Art. Glove.

Cushions: the cushions are covered with quilted goose down divided into sections, which results in enhanced softness and appearance.

Base: turned metal ferrules (Ø 25 mm) with Black-Nickel finish. Protective glides made of Hytrel® (soft, scratch-proof rubber).

Covers: cushions cover fully removable in fabric and leather version.
