

glob philippe starck

Dr. Glob arose from the idea of combining different materials to obtain a greater structural rigidity, solidity while using an innovative design approach. The texture, opacity and thickness of the seat make Dr. Glob a true masterpiece of style. The seat is made with a special plastic compound that gives the chairs a warm and mellow, soft and opaque quality. The material used is batch-dyed to guarantee good resistance to abrasions, optimum product life and outdoor usage. The Dr. Glob is stackable.

Materials

Smooth batch-dyed polypropylene seat with epoxy-polyester powder coated frame.

Color options: 09/black-black 25/light grey-silver
