

stereo luca nichetto

A stackable seating system. Available with 2 different types of structure (four leg or sleigh base) with optional arm-rests. An open, versatile design with multiple possibilities for use in different contexts, Stereo offers a wide range of colours, materials and functions. The seat in polypropylene can be either partially or completely upholstered.

The '4 leg' and 'sleigh' bases are available either in chromed metal or coloured finishes to match the seat, and the 4 leg is equipped variable auto-levelling feet.

"Stereo is a system which combines elegance, lightness and versatility. The typically Nordic style makes it both modern and classic."
