

masters philippe starck

After the success of the Masters chair, winner of prestigious awards like the Good Design Award 2010 and the Gold Dot Award 2013, and which has already become a style icon around the world, Kartell is now proposing a stool version. The legs are lengthened and the seat made smaller, but the structure's unmistakable graphic look, with the woven lines of the three famous chairs that have marked the history of design, remains the same. Available in a range of vibrant colors, ideal for the home or contract sales, Masters Stool is also at ease outdoors.
