

panco romano marcato

Linear or sinuous, Panco is a system of modular table tops for leaning on, placing objects on etc. that can be used to articulate a space in a variety of ways. The lateral legs of the modules, in bent sheet metal and featuring a long vertical cut, afford the design a sleek, elegant feel. Modular system of high tables, available in two lengths and a curved element. Top in honeycomb board in several finishes.

materials:

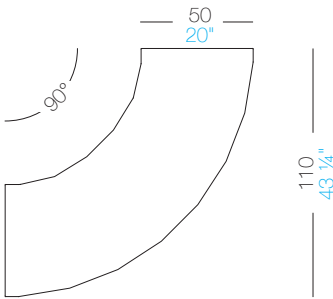

Table top are available in white laminate, blanch oak, and black open pore. Legs in metal, powder coated, with adjustable feet.
