

plus/plus air

alessandro busana

A simple and versatile stackable chair in polypropylene, suitable both for indoor and outdoor areas. It's the perfect balance between functionality and design. Plus Air lounge armchair and sofa in polyethylene with rotational molding technology are also suitable for indoors and outdoors. The large water drain hole is also a useful handle to move them easier.

materials:

Chair in matt polypropylene red, white, beige, anthracite grey, brown and green. Lounge chair and sofa in polyethylene white, anthracite grey and red.
