

## nuance luca nichetto

Nuance is a new concept in upholstered seating. Nuance is available in two versions: one designed to be used with a table, and a 'lounge' version- lower, wider and more welcoming. The upholstery of Nuance incorporates a subtle range of colours thanks to the careful workmanship involved in utilising fabric off-cuts. Nuance combines a strong ergonomic approach with visual appeal and the hand-made tradition of the master craftsman, giving extra value to the product as well as minimizing waste.
