

## spoon antonio citterio

The innovation of Spoon consists mainly in attaching the seat to a central support with a specially reinforced curve to guarantee flexibility and comfort. Furthermore, thanks to a sophisticated design solution, the gas lift pump adjusts the height to between 56 and 76 cm and is perfectly inserted into the stem. In the same ingenious fashion, the handle which regulates the mechanism is perfectly concealed inside the seat. Spoon lends itself to any surrounding: kitchen benches, bars and fashionable, nonconformist-style restaurants.

### Materials

Chair and stool in smooth batch-dyed polycarbonate, Table top with honeycomb aluminium and melamine laminate with legs in batch-colored modified polycarbonate. Color options:

#### Chair

Opaque

structure

cushion

02/orange-orange

03/white-black

07/grey-black

09/black-black

#### Stool

Opaque

03/white

09/black

10/red

26/orange

#### Table

top:

leg
