

## stone lights tom dixon

Marble. Just to think of the millions of years, unimaginable pressures and heat involved in the creation of these beautiful rocks. This hard, semi-precious surface which bears a unique fingerprint has transfixed architects, sculptors and designers for millennia, and for us too this is the dream material – tough yet tactile, heavy and long-lasting with individual personality. We have used white marble for delicate lights, sturdy chopping boards and elegant candle holders.

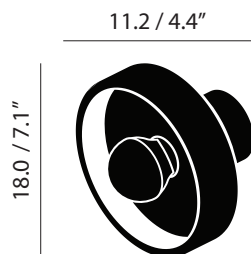

materials:

marble, glass and brass
