

# super position jean nouvel design

Overlapped lines are a tribute to the lightness of horizontality. Uninterrupted vertical lines cross the shelves, which extend like small diving boards into the void. Objects, vases and sculptures can express their differences of scale in empty spaces, in the niches in the middle or on the ends of the overlapped lines.

## Materials:

Uprights and shelves made of extruded aluminium and assembled through an invisible joining system providing the frame stability and a special load resistance. Shelves equipped with extruded aluminium end caps with push-in connection. Made completely of aluminium and 100% recyclable.
