

thin-k Luciano Bertoncini

As subtle as a thought, as perfect as a mathematical formula, Thin-K is a product created from the passion for mechanics of designer Luciano Bertoncini and the technological know-how of Kristalia. A collection of fixed and extending tables, of infinitesimal thickness: just 6mm, that appear to challenge the laws of gravity.

material:

Leg in steel lacquered aluminium, white, sand grey, anthracite grey or black. Top in aluminium polyester powder coat white, sand grey, anthracite grey or black, wood in oak or black oak, gloss or matt glass extra white, anthracite, black, titanium.

dimensions:

extendable

31-1/2"x48-1/2", 64-1/8", 79-7/8"

31-1/2"x59-1/8", 74-3/4", 90-1/2"

35-3/8"x59-1/8", 74-3/4", 90-1/2"

35-3/8"x66-7/8", 82-5/8", 98-3/8"

39-3/8"x78-3/4", 94-1/2", 110-1/4"

fixed (*glass top sizes fixed)
