

## smith rodolfo dordoni

The project Smith Lounge System is meant to fully epitomize the contract soul of the new collection, One World 2008. The Smith lounge system is available in one size and can be fitted with two differently sized backrests which can take several positions on the bench, with just one move. It can be optionally supplied with armrest or decorative cushions. A few connecting coffee tables – made from either burl walnut or brushed porphyry – are available, thus resulting in unparalleled versatility and flexibility. One can then rely on a product synonymous with refined aesthetic and remarkable rigour as well as an implementable system, where the design for a simple bench can develop into, and take on, several souls. "Lounge system" means full modularity, as typical of systems, matched with such a building technology as to allow us to draw on a groundbreaking, impactful product.
