

y chair

tom dixon

A product which balances the three most important requirements demanded of a contract chair: durability, a striking silhouette and an ergonomic form. The Y Chair's expressive shape is injection moulded in glass-reinforced nylon, which means that the material can be recycled, is fatigue resistant and absorbs shock and load through its flexibility. The Y chair comes in sled, swivel and wooden bases.

materials:

Glass reinforced nylon in white or black with a variety of upholstery options
