

abarth fabio novembre

The Abarth Chair is a creation of a new chair inspired by the ABARTH brand, the auto-sport division of the Fiat group. For decades ABARTH has been celebrated for its customized FIAT automobiles, characterized by a close attention to details, the use of innovative materials and the production of fast, hi-performance and fun-to-drive vehicles. Fabio Novembre was inspired by these elements, transforming them into a chair: dynamic lines that symbolise speed give rise to transparent profiles which recall the rush of the wind during a race. A light but highly distinctive seat is matched with a reverse cantilever base. The result is a modern and sporty chair, easily recognizable thanks to its forceful and dynamic silhouette.

materials:

seat- polypropylene and polycarbonate
4 leg structure- painted metal
sleigh base structure- painted aluminum

dimensions:

4 leg- 23" x 24.5" x 32"H
sleigh base- 19.7" x 22.8" x 32"H
