Sloo creates a state between liquid plastic and solid material object. Plastic loves to flow, to be amorphous. We too are amorphous so the relationship is symbiotic. The results are organic forms that softly merge in and out of flat, smooth surfaces. The overall feeling creates a state of endlessness, a continual ephemeral experience. Its material allows for indoor or outdoor use, as the polyethylene resin is highly resistant to impacts and extreme temperatures. Its wide range of finishes and colors allows the creation of different spaces easily.
