

marie antoinette pop

sam baron

Inspired by the exquisite French interiors of the 18th century, by the tables, cabinets, commodes and chests of drawers. Pieces adorned with elaborate work in marquetry and delicate graceful structure, with a sculptural aesthetic which gave them a sense of status aside from their functional aspect.

The collection Marie Antoinette Pop is born, adapted for modern life and the canons of contemporary design, altered and courant shapes but always keeping the same French chic.

Revisiting this magnificent style, playing with iconic furniture, function and variable proportions, this collection is a homage to a period rich in style and full of remarkable characters which populate our collective
