

allen 2 bruno fattorini

A system of sofas and sections.

materials:

frame / solid wood and steel, covered with variable density polyether. One single cushion for the seat and one for the backrest. Chromium-plated feet.

cover / the upholstery covers every part of the sofa and is totally removable. The fixed underlining in cotton makes removing the cover easier and the product maintains its good looks even when uncovered. Optional extra covers available. The units in leather or artificial leather (York) have a fixed cover only and, at MDF Italia's discretion, may have seams on the back and on the front section.

corner or extra-large units / Using elements without right or left armrest, giant-sized sofas or corner units can be created, in addition to a sofa with one armrest. If the units are placed side-by-side, a coupling device is provided. This request must be highlighted by a drawing.

optional cushion for backrest / The rectangular cushions come with a filling in polyether covered with cotton. This makes removing the cover easier and the cushions maintain their good looks even when uncovered. The cover is totally removable. Optional extra covers available.
