

## mod think work observe

Mod is a family of clocks inspired by art and contemporary graphics. A different slant on the clock. A model that is square in shape, with corners that become more rounded as its size grows, until the initial shape is transformed into a circle. Modern because it draws upon design from the electronics world and from the shape of station and street clocks. Modular: from small to large, three sizes and three shapes, for home, office and contract settings.
