tense piergiorgio and michele cazzaniga

A mono-material table with a monochromatic finish. The important technological innovation it incorporates, combined with the tensioning capacity of the components, makes it possible to build table tops in large sizes, which remain perfectly flat and also extremely light. A new look for the Tense table is now offered in three surprising finishes: wood, brass and stone. Equipped tables are also offered with one or two openings for cable management and and under table top cable tray.

materials:
TENSE STANDARD
- Mono-material finish made of acrylic resin and rock materials, available in matte white
- Monochromatic finish available in matte black, turtledove, and red acrylic resin.
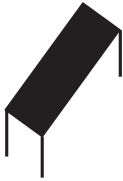

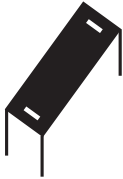

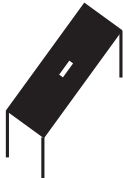

TENSE MATERIAL
- Natural oak wood with transparent acrylic finish. Top, edges and legs coated by 3mm thick solid wood
- Stone, in reconstructed stone, transparent acrylic finish. Top, edges and legs coated with application of 3mm thick material.
- Brass, in brass plate, matt brushed finish and transparent acrylic cover. Top, edges and legs are coated with brass plate.
- Carbone: natural oak, carbonised black, transparent acrylic surface finish. Top, edges and legs coated with application of 3mm thick material.

dimensions:
available in 24 sizes with a height of 28.75"
