

sharky neuland industriedesign

The name comes from the two “fins” at the rear of the chair, the coupling between the frame and the base.

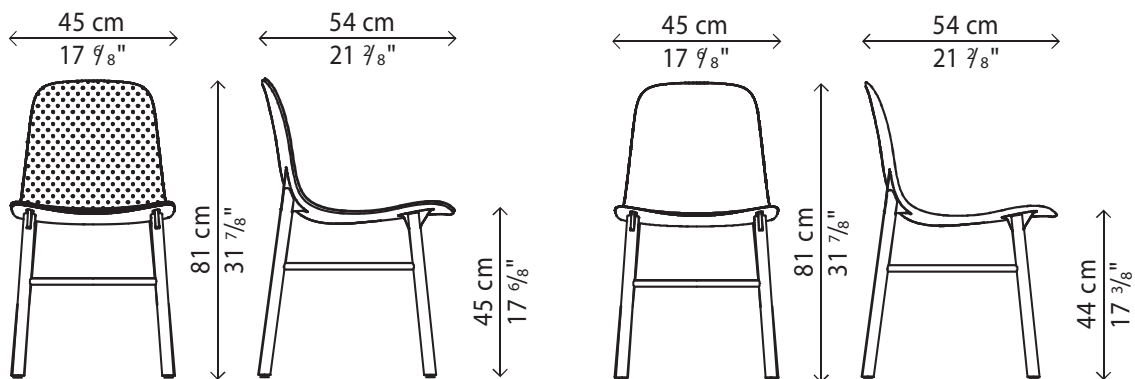

The structure has a polyurethane finish and legs in solid beech wood or European oak.

Sharky can be fitted with thin padding and upholstered in high-quality Kvadrat® fabric, in a choice of colours that provide many contrasting combinations.

materials:

Base finish: solid beech, solid European oak wood, lacquered wood. Body finish: white, black, beige, terracotta brown, brown, olive green or light blue polyurethane or fabric.
