

sign piergiorgio cazzaniga

A highly-comfortable seating of great impact.

SIGN MATT is a natural evolution of the Sign project, the new material and the updated chromatic range make it possible to use this product both indoors and outdoors.

With SIGN BABY, the company thinks about the youngest, since the taste for the beautiful must be nourished since we are children. The chair, designed by Piergiorgio Cazzaniga, comes in a version reduced by 30% in the new bon ton colours suitable for kids aged 3-10.

Proposed in 7 shades: from delicate bon ton colours up to the energetic orange, red, yellow.

materials:

SIGN: polyamide (nylon 6), rotationally molded, gloss painted white.

SIGN MATT and SIGN BABY: polyethylene (PE), moulded with rotational moulding technology.
