

## venti 967ARCH

This new office system features a linear iconic design typical of MDF Italia's "dna". A reflection on the desk, the archetypal workstation, proposes to create an office atmosphere in a contemporary key. The contrast between full and empty volumes, the carefully studied combination of various finishes and the cables built into the bearing frame define a renewed proposal for office furnishings.

The technical challenge starts from the use of a slender frame generated by a 20x20 profile, a feature that perfectly merges with MDF Italia's other table and storage collections. The collection 20.VENTI includes both individual tables and double workstations, which can be aggregated, and a wide selection of screens and accessories.

Designed by 967Arch for MDF Italia to offer an extensive choice of dimensions and finishes for working areas, management offices and residential settings where tables for nomadic technological work are becoming a common trait.

### materials:

medium density fibreboard panels covered with Fenix NTM laminate, Steel frame and legs painted with epoxy powder, structural wireway made of medium density fibreboard two-tone surfaced panels.

Tops for a white stand in matt or gloss white Namibia marble, matt or gloss white Carrara marble and matt or gloss medium grey Bardiglio marble.
