

boiaccia wood lucidipevere

The Boiaccia Wood is a different version from the original in material quality of cement to the natural quality of wood. The table called has legs in solid European oak wood or cement, internally reinforced with a steel core. The top is available in Pure-white laminate, Fenix-NTM® colors with a soft-touch effect. It has an epoxy lacquered aluminum frame just like the top. This from the designer duo LucidiPevere, has led to the creation of an elegant and minimalist object.

materials:

Legs in solid European oak, solid walnut stained oak, solid black oak or grey cement.
Top in white laminate, black Fenix, white Fenix with colored edge or Londra grey Fenix with colored edge.
