

## melody neuland industrie design

A bookcase designed to display books horizontally. Standard compartments characterized by a variety of shelving positions where also big volumes have a place. The single unit can always be turned upside down. You can flank more units, thus creating a continuous or discontinuous pattern in the shelves. To this purpose the plinth is delivered unmounted so as to be used as desired.

### materials:

#### Structure:

Uprights and shelves in thickness 8 mm, made from MD wood fibreboards, matt lacquer in white (goffered); back from 10 mm thick white melamine-coated board.

By flanking more units, you can create large- sized configurations.

Adjustable feet to 15 mm.

### dimensions:

Height 85.2" , length 35" , depth 10"
