

poule patrick norguet

The Poule occasional table has a light and playful appeal, starting with its name inspired by the shape of the pedestal that recalls a hen's foot. But it is also highly practical: in drawn aluminum with pressure die-cast components in the same resistant material, it has a fixed or fold-up top so that it can be stored in limited spaces. Available in two heights, with an aluminum frame with black or white epoxy lacquer for outdoor use, and a round, square or rectangular laminate top.

materials

Structure in aluminum white or black lacquer. Top in white or black laminate.
