

thin-k Luciano Bertoncini

As subtle as a thought, as perfect as a mathematical formula, Thin-K is a product created from the passion for mechanics of designer Luciano Bertoncini and the technological know-how of Kristalia. A collection of fixed and extending tables, of infinitesimal thickness: just 6mm, that appear to challenge the laws of gravity.

material:

Leg in steel lacquered aluminium, white, sand grey, anthracite grey or black. Top in aluminium polyester powder coat white, sand grey, anthracite grey or black, wood in oak or black oak, gloss or matt glass extra white, anthracite, black, titanium.

	280 cm 110 2/8"	→ Aluminium → Wood
	295 cm 116 1/8"	→ Aluminium → Wood

Longo

finishes:

For Thin-K tables in an extendable version, the extensions are always in epoxy-powder lacquered aluminium (also for versions with a glass or wood top).

For Thin-K tables with an aluminium, wood or glass top, the under-top bars are in anodised aluminium.
