

TNP christophe pillet

Originally created to furnish the Théâtre National Populaire, one of the most prestigious French cultural institutions, the TNP occasional table is an important furnishing protagonist in the home or in community spaces. Its cast iron base, personalized with the theatre's logo, supports a square or rectangular top, the typical dimensions of the tables in Paris bistros. All parts are lacquered in three colors: white, black or the same red used in the French theatre.

materials:

Cast iron base and steel in white, black or red coral.
